Claim Rejections - 35 USC § 112

Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Only the barrier structure is being positively recited. Consequently, referencing the size of the barrier to an unclaimed element, i.e. the furniture, renders the scope of the claim vague and indefinite.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-13 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Berry.

Berry discloses replications of pin mounted pivotally joined members that have midpoint pivots. All references to the furniture or intended use is purely functional.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 14 is rejected under 35 U.S.C. 103(a) as being unpatentable over Berry.

Art Unit: 3634

The location at which the Berry device is deployed is clearly a matter of choice of use. The use of the deployed device in the vicinity of furniture is clearly possible and obvious.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
